Medical Advisor

*You can make a difference today in the life of someone with Tourette Disorder. Please consider supporting the Long Island Tourette Association, an organization that offers much needed services to the Tourette community. Even the smallest contribution is essential and greatly appreciated.*

Get ready for an exciting day! On Saturday, June 6, 2026, the Long Island Tourette Association will kick off its very first Family Fun Day Picnic at the beautiful Eisenhower Park, located at 1899 Hempstead Turnpike, East Meadow, NY 11554!

In the past, our Family Fun Day has been a fabulous fundraising event benefiting both the Tourette community and our local friends. This year, we're switching things up for a more intimate celebration exclusively for our community, while still raising essential funds. But don't worry! It's going to be a blast, packed with music, delicious food and drinks, interactive games, arts and crafts and tons of fun activities! Bring your family and friends and let's make this an unforgettable day!

While we'll have plenty of food and drinks, feel free to bring your own picnic goodies, games, and your favorite blankets or chairs to make it even more special.

Every dollar raised will support vital chapter activities, including support group meetings, advocacy, and social events throughout the year.

**Tourette Disorder (TD)** is a lifelong neurobiological disorder, which is often misunderstood and misdiagnosed. TD is characterized by involuntary movements and vocalizations called tics, which become evident in early childhood or adolescence between the ages of 2 and 15. Currently there is no cure for TD.

**Long Island Tourette Association** is a chapter of the Tourette Association of America, the only national voluntary non-profit membership organization in this field. Our mission is to provide help at the community level by raising awareness, fostering social acceptance, working to advance treatment and care, educating professionals to better serve the needs of the Tourette community, advocating for public policies, providing support and empowering our community to deal with the complexities of the disorder. In every school district on Long Island there are children with a diagnosis of Tourette Disorder who need support, understanding and assistance in living with this disorder while researchers continue their efforts to find the causes and a cure.

To donate online go to [longislandtourette.org](http://longislandtourette.org) and use the
